Introduction

Talbot is a major provider of insurance to the energy sector. We are heavily involved in the upstream and downstream oil and gas business as well as power generation and utilities.

We have an experienced team of proven leaders within their chosen market sectors. The business aims to establish mutually beneficial long-term relationships by offering a flexible and responsible service to both brokers and clients across our global platforms.

Risk engineering is an integral part of the business model. Our engineering team have extensive industrial experience combined with several years operating in the insurance arena. Technical support is provided to underwriters through reviews and site surveys.

Lines of Business

We are able to offer bespoke policies in all the following sectors:

- Exploration and production of oil and gas, both offshore and onshore.
- Midstream transportation and processing infrastructure.
- Refining, petrochemicals and related hydrocarbon assets.
- Power generation and utilities.
- Renewables including offshore wind farms and geothermal.
- Construction of offshore oil and gas facilities.
- Construction of downstream plants.

Policy coverage is offered on an 'All Risks' basis including Machinery Breakdown and Business Interruption insurance where required. We can also offer control of well insurance, transit coverage, third party liability, removal of wreck, loss of production income, construction all risks including delay in start-up and pollution liability.

Talbot Risk Services Pte Ltd is registered by the Monetary Authority of Singapore as an approved Lloyd's Asia scheme service company.
